

Press Release

Clifton Water District 510 34 Road Clifton, CO. 81520 Phone: (970) 434-7328

Release Date: Friday, June 14, 2013
Contact: Mark Dalley, Distribution Supervisor
Phone: (970) 434-7328

FOR IMMEDIATE RELEASE

At 2:30 a.m. today, June 14, a 10" waterline break occurred in 32 Road near its intersection with D $\frac{3}{4}$ Road. District crews quickly responded and isolated the waterline. Some customers may experience cloudy water. Two customers will be without water until repair is complete.

Both southbound lanes of 32 Road will be closed while repairs to the waterline are performed. Traffic control is in place and traffic is being diverted to one lane in both directions on 32 Road. Using an alternate travel route is highly recommended.

Repairs to the 10" waterline should be completed in the afternoon hours of Friday, June 14 and traffic control will remain in place until final road repairs are complete.

If you have any questions please contact the Clifton Water District Office at 434-7328.
